## Aero Technical Components Inc: COVID-19 Update

---

Dear Customer,

In light of the rapidly evolving news around COVID-19, we want to assure you that the well-being of our employees, customers, partners and communities are our top most priority.

Following guidelines from trusted sources, including the World Health Organization (WHO) and Centers for Disease Control and Prevention (CDC), we're taking comprehensive measures to ensure our employees remain safe and continue to serve you. As such, we are actively monitoring the rapidly changing situation and taking action to facilitate a safe and healthy working environment while maintaining business continuity.

We understand you may be concerned with our ability to fulfill orders. To ensure we can meet your needs, we rely on a broad range of suppliers that span across North America and the world. Additionally, we maintain relationships with alternative vendors and suppliers should the need arise. If we experience any issues in our supply chain, we would first turn to our qualified vendors in other locations to address gaps, and secondly to alternative vendors.

We realize times like these can be unsettling, rest assured we are ready to serve you and value your business.

Sincerely,

PV Patel  
CEO/President  
Aero Technical Components Inc
